

**Fit for the Future:**

**Update March 2011**

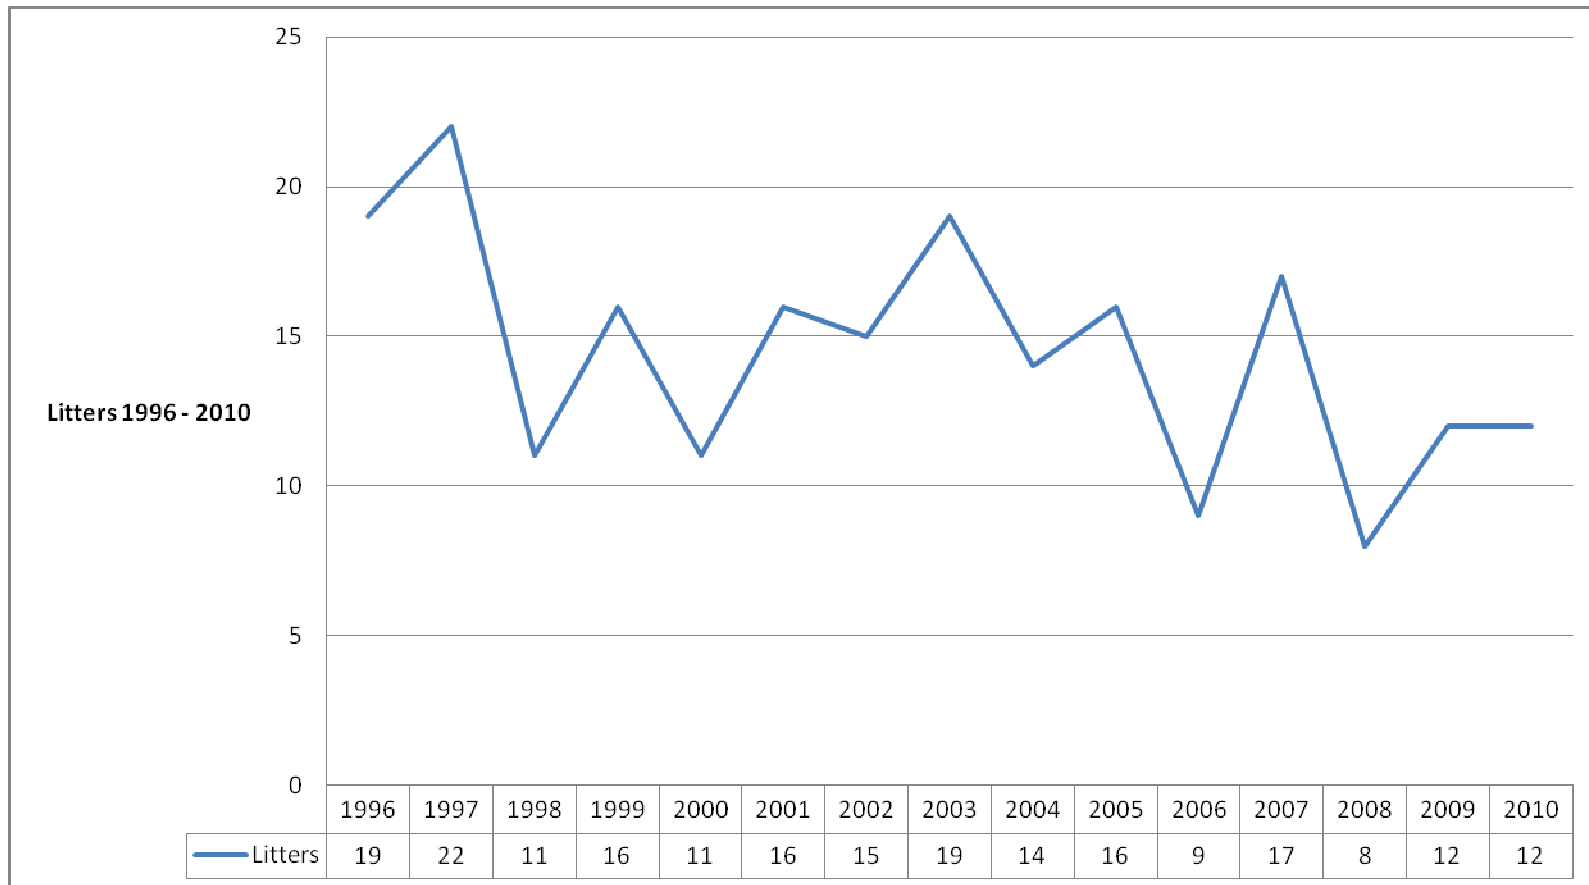

## Statistical Update

In 2009 there were 74 dogs registered with the Kennel Club. This figure included two adult imports from Finland, a dog and a bitch. In 2010 - 54 dogs were registered, including two adult imports, a dog from Finland and a bitch from Germany. The figures keep us well under the Kennel Club's '300' registration ceiling which therefore continues to define us as 'vulnerable'.

### Litters registered 1996 – 2010

There were 12 litters in 2009 and 12 in 2010 which were registered at the Kennel Club.

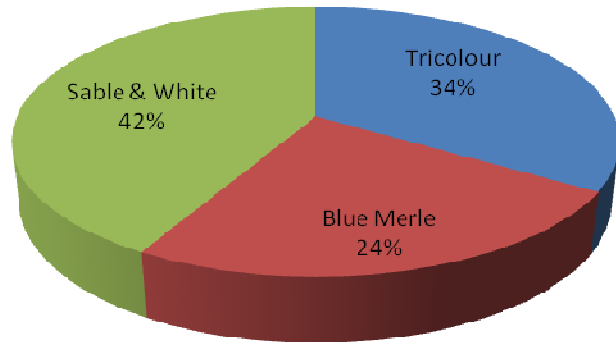

### Number of Active Breeders in 2009/10

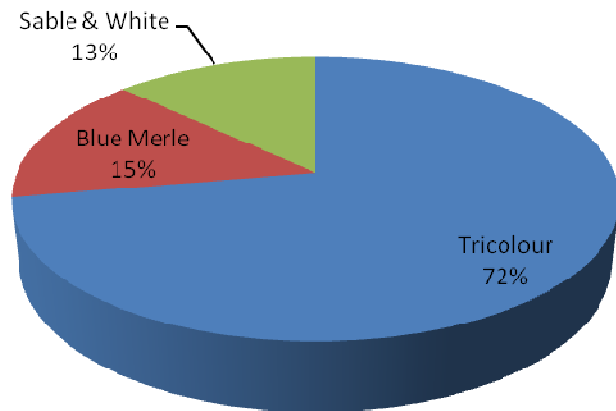

Eleven breeders accounted for the registrations in 2009, whilst ten breeders were responsible for the 12 litters registered in 2010. Interestingly, of the 2010 breeders, it is believed that 4 are first time Smooth Collie breeders.

## Family Matters

Modern day Smooths can be traced back to a limited number of sire and dam lines.

Concentration of breeders' efforts on a small number of lines due to their prepotence in producing winners for the show ring may have a detrimental effect on the overall health and well being of the breed and in the diversity of lines available in the future for breeders to use in their breeding programmes. The table on the following page shows the level of diversity of breeders' efforts in 2009 and 2010. The table below should be used as a key.

### Sire Lines

1 Ch Peterblue Nigel

2 Ch Wythenshawe Windhover

3 Can Ch Kelbonnie Goliath O'Darjoro

4 Newarp Silver Shadow

5 Hewburn Liquorice of Ladypark

### Dam Families

A Jalonda's Cerinda Caramia

B Ch Redevalley Rosita of Ladypark

C Selskars Sablette

D Manordeifi Rosalyn (Rough)

F Honey Bun of Astrellita

\*Timonan Nero Nestor is descended from Am Can Ch Braemar's What's His Face, imported from Canada to Finland without going via the UK. What's His Face's Smooth line runs out with a sable & white Smooth, Ch Nostalgix Paradox Lost, born 1976. He was sired by a Rough, and the line goes through the Am Ch Silver Ho Parader line. You have to go all the way back to the exported UK Rough Ch Eden Emerald to find a UK Collie in that line, so it is not (currently) numbered on our charts, although it does join up somewhere with sire line 3, but further up than Goliath. Emerald was born in 1922 and exported to the United States.
